

S1 – S3

Is there anything we could do as a school to help you gain more benefit from Homework?

More study clubs	Longer to complete homework
Don't give any!	Some teachers don't give any
Revision of past lessons required	More time to do homework
Homework explained	Regular homework
More useful homework eg maths	More time to complete homework
More help	Don't give us any
No homework	Need homework to be linked to school work
We should learn in class – not getting brothers and sisters to help	
Do school work in Home Room	A little less homework would reduce worry about it
Keep homework on same topic as classwork, add in revision instead of questions all the time	

Is there anything we could do as a school to help you gain more benefit from Homework?

Give an instruction sheet and less homework	Homework every 2-3 weeks, not 1 hour a week
Teach us things we are going to need later in life	Need longer for homework
Better homework info on school website	Online
Balance the homework load	More periods of each subject
Less homework – hard to do hours of homework on time	Do homework in class
Give use some, actually punish people who don't do it	Have a set day for homework, eg Maths on Mondays, English on Fridays
Space homework out more	Give pupils more time
Go over it in class and make it fun	Keep it short so it is fresh in our minds
More departments to use online for homework	I don't like homework – it is pointless
No homework	Need more time to do it
Make it fun, and less of it	Every 4 weeks some homework from a subject
Teacher needs to explain more about the homework	Make it something we look forward to doing

Give additional feedback on your general school experience, Home Room or homework

More study clubs	Being at school helps me develop who I am
Need more Sfl Teachers	Good experience meeting new people and trying new subjects
Uniform letter	Homeroom for revising not activities
No learning conversations yet [S2]	More maths homework –maths teacher only on a Monday
More homework	Teachers should help more, not so much homework
Teachers get annoyed if you tell them you are struggling with homework	Stop Home Room!
Homework sometimes unnecessary	No benefit from homework
Need to deal with bullying	Need teachers will to teach us
Sort out girl's toilets [1]	Sort out girl's toilets [2]
A place to hand out at lunch and break	Home Room helps you speak to all age groups
Instead of sitting doing nothing on Home Rooms we should be learning in subjects we need	Do homework in Home Room
Not so many periods of Home Room – do homework and studying in Home Room.	Home Room should be every Monday first period so we know what is happening during the whole week
Should be able to do 15-25 minutes homework in Home Room	I would like more help in class [S1]
I need more help in class [S1]	More help and support/less shouting [S1]
Registration 10 mins in morning	Struggle with subject irrelevant to life after school
Only have Home Room until S3 because Senior could be preparing for exams	
I like Home Room, but think we should be in class doing work. Home Room should be at start of day.	
Home Room every day in the mornings	Better help for needy children
I enjoy being in a class with other years, but activities are pointless, should do homework or revise	
Some aspects of Home Room are good and helps guidance to manage pupils	
Like mixing with all years.	Bring back registration
Less Home Room time for S1-3	Most things are based on exams.
School wi-fi isn't great for doing homework	Home Room should be one 30 minute period a week
Instead of being ignored our suggestions should be listened to and acted on	
Give us more things to do in Home Room [quizzes, puzzles etc]	
Improve school toilets.	Need better PE facilities and longer lunchtimes.
